

RAIMOL DEG SOL
SOLVENT DEGREASER**Identification of the Substance/Preparation and Company Undertaking**

Product Name: RAIMOL DEG SOL

Product Information: Solvent Soluble Degreaser

Company Name: Rainchem International, Inc.

Address: 4015 Le Cul de Sac Street, Sun Valley, Paranaque City

Phone Number: (632)403-8297

Composition/Information on Ingredients

| Chemical Name | CAS Number |
|-------------------------------------|------------|
| Light Aromatic Solvent Naphtha | 64742-95-6 |
| Isoparaffinic Petroleum Distillates | 90622-58-5 |

Risk Phrases and Symbol

RAI 1 = Irritating to eyes

RAI 2 = Irritating/Harmful to respiratory system

RAI 3 = Irritating to skin

Hazards Identification

Health: Lubricating Oils may cause any skin disease or respiratory illness.

Skin Contact: RAI 3

Eye Contact: RAI 1

Inhalation/Ingestion: RAI 2 (Have no harmful effect in normal temperature and atmospheric pressure).

First-Aid Measures

Skin Contact: Directly contact to the skin! Remove contaminated clothing/shoes. Rinse with water and wash thoroughly with soap. If irritations occur get medical attention promptly to prevent any serious injury.

Eye Contact: Immediately rinse with water for at least 15 minutes. If irritations occur, medical attention is required.

Ingestion: Do not induce Vomiting! In general, no treatment is necessary unless huge quantities of products are ingested, however medical advice is necessary.

Inhalation: Avoid unnecessary actions without the prior attention of the medical team or just simply remove the victim to open area and provide oxygen to avoid any Respiratory failure.

Fire Fighting Measures

Fire: Flash Point: None

Ignition Point: No information found

Accidental Release Measures

Personal Precautions: Wear appropriate personal protective suites/equipment such as helmet with face shield, bunker coats, glove and rubber boots.

Environmental Precautions: Prevent entry into waterways, sewer, basements or confined areas.

Method for Cleaning Up: Isolated hazard area. Keep unnecessary and unprotected personnel from arriving. Recover the liquid if possible. Use non sparking tools and equipment's. Do not use combustible materials, such as sawdust.

Handling and Storage

Handling: Keep in tightly closed container

Storage: Do not store in open or unlabelled containers

Exposure Control/Personal Protection

Ventilation Requirement: Use with adequate ventilation.

Respiratory Protection: Not normally necessary

Eye Protection: Safety glasses with side shield

Other Protection: Rubber gloves to minimize contact with skin.

Physical and Chemical Properties

| | |
|---------------------|--|
| Appearance: | Clear Viscous Liquid |
| Colour: | Light Amber |
| Odour: | Lemon Scent |
| Flash Point: | None |
| Physical State: | Liquid |
| Density (kg/li): | Minimum: 1.01 kg/li Maximum: 1.05 kg/li |
| Solubility (Water): | Soluble |

Stability and Reactivity

Hazardous Reactions: Stable under normal temperature and pressure.

Stability: Stable under ordinary conditions of use and storage.

Hazardous Decompositions: Material does not decompose

Toxicology Information

Direct or prolonged skin contact with certain lubricating oils can cause mild skin irritation characterized by drying, crackling or oil acne. Injection under the skin cause a wound in muscle and run into the blood stream cause inflammation, swelling, fever, and systematic effects, including mild Central Nervous System depression and severe tissue damage.

Ecological Information

Biodegradation: Biodegradable

Mobility: Spillage unlikely to penetrate the soil. Will mix with water.

Other Toxicity: No data available

Disposal Considerations

Product and Contaminated Packaging: Dispose of the Products in accordance with the Local and/or National Regulations.

Transport Information

Not regulated

Other Information

This MATERIAL SAFETY DATA SHEET deals with the health and safety information. The product should be used in applications specified in the product 's Technical Data Sheet. For any others uses, exposures should be assessed so that appropriate handling practices and training programs can be established to certify safe workplace operations.
