

**RAIMOL MERD X III****Automatic Transmission Fluid****Product Description**

**MERD-X** is a premium automatic transmission fluid that offers excellent low temperature fluidity, high temperature stability, and rust, corrosion, and wear protection for longer engine service life. It is dyed red for easy leak detection.

**Applications**

- As a power transmission fluid for most automatic, power shift, hydrostatic, and many standard transmission systems of cars, trucks and heavy equipment. Meets the requirement of Dexron-III/ Mercon/Allison C4 Transmission Fluids.

**Performance Features**

- Excellent oxidation stability for longer service life.
- Anti-wear, anti-rust, and anti-foam treated.
- Detergent additives prevent the formation of gum and sludge.
- Lower friction gives smoother shifts.
- Extreme pressure additive treated for extreme service.
- May also be used as a multiple viscosity hydraulic fluid and as a cold temperature gear lubricant.
- Dyed red for easy leak detection

**Physical and Chemical Properties**

Appearance:	Clear
Color:	Red
Flash Point:	>200°C
Physical State:	Liquid
Density (kg/li):	0.865
Solubility (Water):	Insoluble
Viscosity @40:	<b>Typical:</b> 45.0 cst (centistokes)

**Health and Safety**

This product does not pose a health or safety hazard when used in the recommended application and when proper industrial safety practices are observed. As with all industrial oils and lubricants, prolonged contact with skin should be avoided, especially with used oils. Wash skin with soap and water after contact. Take used oil to an authorized government accredited recycler. See MERD-X MSDS.

**Packaging**

18 liter container and 200 liter drum.
