

RAIMOL REINDRO 320

Hydraulic Oil 320

Product Description

REINDRO 320 is formulated from a very high quality paraffinic, high viscosity index base oils and a balanced blend of synergistic and protective additives to give them superior performance over ordinary hydraulic fluids.

Application

- For a wide range of hydraulic and fluid power transmission systems of industrial machinery and equipment like hydraulic presses, stamping machines, injection molding machines, hydraulic controls of lathe machines, casting machines, and hydraulic actuators. It may also be used for the hydraulic systems of mobile equipment like forklifts and other heavy equipment.

Performance Features

- High thermal stability which helps extend oil life
- Rust and Corrosion Treated
- Foam Resistance
- Hydrolytic stability and demulsibility
- High Film strength
- Seal and O-ring Compatibility
- Resistant to thickening at high pressure
- Resistant to thinning at high temperature
- Excellent filterability
- Excellent anti-wear characteristics

Physical and Chemical Properties

Appearance:	Clear
Color:	Minimum: Light 1.5 Maximum: Light 2.5
Odour:	Mild
Flash Point:	>240°C
Density (kg/li):	0.90
Solubility (Water):	Insoluble
Viscosity @40:	Typical: 320 cst (centistokes)

Health and Safety

These products will not pose a safety health hazard if used properly and industrial safety practices are observed. As with all industrial lubricants, avoid prolonged contact with skin, especially with used oils. Wash hands with soap and water after contact. Take used oil to a recycler. Do not discharge in the environment. See REINDRO 320 MSDS.

Packaging

18 liter pail and 200 liter drum.
